The Zinn Reader - Howard Zinn 1997
No other radical historian has reached so many hearts and minds as Howard Zinn. His A People's History of the United States has gone into more than 25 printings and sold over 400,000 copies. It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright, and accessible. Whether his subject is war, race, politics, economic justice, or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity, that heart and mind can speak with one voice. The Zinn Reader represents the first time Zinn has attempted to present the depth, and breadth, of his concerns in one volume. The result is a big book, and a monumental book, one that will remain, alongside A People's History of the United States, as an essential and necessary Zinn text.

Disobedience and Democracy - Howard Zinn 2012-09-01
Howard Zinn's cogent defense of civil disobedience with a new introduction by the author. In this slim volume, Zinn lays out a clear and dynamic case for civil disobedience and protest, and challenges the dominant arguments against forms of protest that challenge the status quo. Zinn explores the politics of direct action, nonviolent civil disobedience, and strikes, and draws lessons for today.

A People's History of the United States - Howard Zinn 1996
In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for undergraduate and post-graduate students and scholars in American social history and
American studies, as well as the general reader.

**The Zinn Reader**-Howard Zinn 2011-01-04
No other radical historian has reached so many hearts and minds as Howard Zinn. It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright, and accessible. Whether his subject is war, race, politics, economic justice, or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity, that heart and mind can speak with one voice. Here, in six sections, is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history, and today.

**Howard Zinn on Race**-
Howard Zinn 2011-06-14
Howard Zinn on Race is Zinn’s choice of the shorter writings and speeches that best reflect his views on America’s most taboo topic. As chairman of the history department at all black women’s Spelman College, Zinn was an outspoken supporter of student activists in the nascent civil rights movement. In "The Southern Mystique," he tells of how he was asked to leave Spelman in 1963 after teaching there for seven years. "Behind every one of the national government’s moves toward racial equality," writes Zinn in one 1965 essay, "lies the sweat and effort of boycotts, picketing, beatings, sit-ins, and mass demonstrations." He firmly believed that bringing people of different races and nationalities together would create a more compassionate world, where equality is a given and not merely a dream. These writings, which span decades, express Zinn’s steadfast belief that the people have the power to change the status quo, if they only work together and embrace the nearly forgotten American tradition of civil disobedience and revolution. In clear, compassionate, and present prose, Zinn gives us his thoughts on the
Abolitionists, the march from Selma to Montgomery, John F. Kennedy, picketing, sit-ins, and, finally, the message he wanted to send to New York University students about race in a speech he delivered during the last week of his life.

You Can't Be Neutral on a Moving Train - Howard Zinn
2018-09-18 If you’re both overcome and angered by the atrocities of our time, this will inspire a “new generation of activists and ordinary people who search for hope in the darkness” (Keeanga-Yamahtta Taylor). Is change possible? Where will it come from? Can we actually make a difference? How do we remain hopeful? Howard Zinn—activist, historian, and author of A People’s History of the United States—was a participant in and chronicler of some of the landmark struggles for racial and economic justice in US history. In his memoir, You Can’t Be Neutral on a Moving Train, Zinn reflects on more than thirty years of fighting for social change, from his teenage years as a laborer in Brooklyn to teaching at Spelman College, where he emerged in the civil rights movement as a powerful voice for justice. A former bombardier in World War II, he later became an outspoken antiwar activist, spirited protestor, and champion of civil disobedience. Throughout his life, Zinn was unwavering in his belief that “small acts, when multiplied by millions of people, can transform the world.” With a foreword from activist and scholar Keeanga-Yamahtta Taylor, this revised edition will inspire a new generation of readers to believe that change is possible.

A Power Governments Cannot Suppress - Howard Zinn
2007 A Power Governments Cannot Suppress is Howard Zinn’s major new collection of essays on American history, class, immigration, justice, and ordinary citizens who have made a difference.

Voices of a People's History of the United States -
Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in Voices of a People's History of the United States, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's A People's History of the United States, Voices of a People’s History is the long-awaited companion volume to the national bestseller. For Voices, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. Voices of a People’s History is a symphony of our nation’s original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation’s true spirit of defiance and resilience.

Agitation with a Smile-
Stephen Bird 2015-11-17
Agitation with a Smile offers a reappraisal of Howard Zinn’s political thought and situates his efforts in a contemporary context, looking toward the nature of activism and dissent in the future. This is the first book to provide a substantive account and assessment of Zinn's philosophy and approach to collective action and, to a larger extent, democracy. The contributors to this book explore the most effective mechanisms by which to arouse public support for seemingly radical positions and how current technological advancements may alter our perception of Zinn's activism. The book is a valuable guide to a new generation of activists and scholars of politics in gauging the lasting relevance and legacy of Zinn's ideals, concepts, and methodology. The text is neither fawning
nor unduly critical, unlike many discussions of Zinn in popular culture. Rather, the contributors engage the various complexities and tensions present throughout Zinn's work and subject them to contemporary assessment. This is a multidisciplinary and international approach to Howard Zinn's intellectual and activist canon.

**Passionate Declarations**
Howard Zinn 2009-12-22
From the bestselling author of A People's History of the United States comes this selection of passionate, honest, and piercing essays looking at American political ideology. Howard Zinn brings to Passionate Declarations the same astringent style and provocative point of view that led more than a million people to buy his book A People's History of the United States. He directs his critique here to what he calls "American orthodoxies" -- that set of beliefs guardians of our culture consider sacrosanct: justifications for war, cynicism about human nature and violence, pride in our economic system, certainty of our freedom of speech, romanticization of representative government, confidence in our system of justice. Those orthodoxies, he believes, have a chilling effect on our capacity to think independently and to become active citizens in the long struggle for peace and justice.

**The Power of Nonviolence**
Howard Zinn 2002
A stirring anthology of writings about peace and nonviolence from Buddha to Arundhati Roy As you read this, America is at war. President Bush declared a "war on terrorism" and 90 percent of the American people believed he was doing the right thing. But is there another way? From Buddha in the pre-Christian era to the most recent declaration of peace principles by Nobel laureates, nonviolence has always been an alternative. With an introduction by Howard Zinn about September 11 and the U.S. response to the terrorist attacks, The Power of Nonviolence presents the most salient and persuasive arguments for peace in the last 2,500 years of human
history. Included are some of the most original thinkers and writings about peace and nonviolence—Buddha, Ralph Waldo Emerson, Henry David Thoreau's "Civil Disobedience," Jane Addams, William Penn on "the end of war," Dorothy Day's position on "Pacifism," Erich Fromm, and Rajendra Prasad. Supplementing the classic voices are more recent advocates' arguments for peace: Albert Camus' "Neither Victims Nor Executioners," A. J. Muste's impressive "Getting Rid of War," Martin Luther King's influential "Declaration of Independence from the War in Viet Nam," and Arundhati Roy's "War Is Peace," plus many others. Arranged chronologically, covering the major conflagrations of the world in the last hundred years, including the war in Afghanistan, The Power of Nonviolence is a compelling step forward in the study of pacifism, a timely anthology that fills a void for people looking for responses to crisis that are not based on guns or bombs.

**Just War**-Howard Zinn 2005

Howard Zinn, an American historian, and Gino Strada, surgeon and founder of EMERGENCY (the Italian humanitarian society for the care and rehabilitation of civilian victims of war and anti-personnel mines), are in agreement with one another on the need to abolish war—all wars. Zinn and Strada, speaking in Rome recently, captivated an audience of over a thousand people with their views on war. Zinn's words are captured, unabridged, in this book. Zinn's message in Rome was simple but powerful. The photos that accompany the text in this volume are by Moises Saman, a photo-reporter who fights against war with his camera. Howard Zinn said that if the human race is going to survive, it must declare wars taboo, as it did with cannibalism and slavery. Wars, he says, referring to Gino Strada's experience in treating its victims, are essentially wars against civilians, many of them children. All of us, therefore, have a responsibility to work towards a time when we still struggle for justice, but without war.
Sncc-Howard Zinn  
2012-11-01 Howard Zinn tells the story of one of the most important political groups in American history. SNCC: The New Abolitionists influenced a generation of activists struggling for civil rights and seeking to learn from the successes and failures of those who built the fantastically influential Student Nonviolent Coordinating Committee. It is considered an indispensable study of the organization, of the 1960s, and of the process of social change. Includes a new introduction by the author.

Failure to Quit-Howard Zinn  
2012-11-01 A selection of Howard Zinn's most popular and accessible essays on history and politics. In this lively collection of essays, now with a new afterword, Zinn discusses a wide range of historical and political topics, from the role of the Supreme Court in U.S. history to the nature of higher education today.

Howard Zinn on History-Howard Zinn  
2011-06-14 Howard Zinn began work on his first book for his friends at Seven Stories Press in 1996, a big volume collecting all his shorter writings organized by subject. The themes he chose reflected his lifelong concerns: war, history, law, class, means and ends, and race. Throughout his life Zinn had returned again and again to these subjects, continually probing and questioning yet rarely reversing his convictions or the vision that informed them. The result was The Zinn Reader. Five years later, starting with Howard Zinn on History, updated editions of sections of that mammoth tome were published in inexpensive stand-alone editions. This second edition of Howard Zinn on History brings together twenty-seven short writings on activism, electoral politics, the Holocaust, Marxism, the Iraq War, and the role of the historian, as well as portraits of Eugene Debs, John Reed, and Jack London, effectively showing how Zinn’s approach to history evolved over nearly
half a century, and at the same time sharing his fundamental thinking that social movements—people getting together for peace and social justice—can change the course of history. That core belief never changed. Chosen by Zinn himself as the shorter writings on history he believed to have enduring value—originally appearing in newspapers like the Boston Globe or the New York Times; in magazines like Z, the New Left, the Progressive, or the Nation; or in his book Failure to Quit—these essays appear here as examples of the kind of passionate engagement he believed all historians, and indeed all citizens of whatever profession, need to have, standing in sharp contrast to the notion of "objective" or "neutral" history espoused by some. "It is time that we scholars begin to earn our keep in this world," he writes in "The Uses of Scholarship." And in "Freedom Schools," about his experiences teaching in Mississippi during the remarkable "Freedom Summer" of 1964, he adds: "Education can, and should, be dangerous."

**Crimes of Dissent**—Jarret S. Lovell 2009-07-01 From animal rights to anti-abortion, from tax resistance to anti-poverty, activists from across the political spectrum often deliberately break the law to further their causes. While not behaviors common to hardened or self-seeking criminals, the staging of civil disobedience, non-violent resistance, and direct action can nevertheless trigger a harsh response from law enforcement, with those arrested risking jail time and criminal records. Crimes of Dissent features the voices of these activists, presenting a fascinating insider’s look at the motivations, costs and consequences of deliberately violating the law as a strategy of social change. Crimes of Dissent provides readers with an in-depth understanding of why activists break the law, and what happens to them when they do. Using dynamic examples, both historic and recent, Jarret Lovell explores how seasoned protesters are handled and treated by the criminal justice system, shedding light on the intersection between the
political and the criminal. By adopting the unique vantage of the street-level activist, Crimes of Dissent provides a fascinating view of protest from the ground, giving voice to those who refuse to remain silent by risking punishment for their political actions.

**The Other Civil War**-Howard Zinn 2011-03-15 The Other Civil War offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller A People's History of the United States, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

**Truth Has a Power of Its Own**-Howard Zinn 2019-09-03 Never before published, an extraordinarily inspiring and radical conversation between Howard Zinn and PBS/NPR journalist Ray Suarez, wherein American history is turned upside down—published to coincide with the tenth anniversary of Zinn's death Truth Has a Power of Its Own is an engrossing collection of never-before-published conversations with Howard Zinn, conducted by the distinguished broadcast journalist Ray Suarez in 2007, that covers the course of American history from Columbus to the War on Terror from the perspective of ordinary people—including slaves, workers, immigrants, women, and Native Americans. Viewed through the lens of Zinn's own life as a soldier, historian, and activist and using his paradigm-shifting People's History of the United States as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights, all from an
Civil Disobedience - Elizabeth Schmermund 2017-07-15 Civil disobedience, the refusal to obey certain laws, is a method of protest famously articulated by philosopher and writer Henry David Thoreau in his 1849 essay “Civil Disobedience.” Thoreau believed that protest became a moral obligation when laws collided with conscience. Since then, civil disobedience has been employed as a form of rebellion around the world. But is there a place for civil disobedience in democratic societies? When is civil disobedience justifiable? Is violence ever called for? Furthermore, how effective is civil disobedience?

A Young People's History of the United States - Howard Zinn 2011-01-04 A Young People's History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to The People Speak, the film adapted from A People's History of the United States and Voices of a People’s History of the United States. Beginning with a look at Christopher Columbus’s arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers’ rights, women’s rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of A Young...
People’s History of the United States presents a radical new way of understanding America’s history. In so doing, he reminds readers that America’s true greatness is shaped by our dissident voices, not our military generals.

Artists in Times of War-
Howard Zinn 2011-01-04
"Political power," says Howard Zinn, "is controlled by the corporate elite, and the arts are the locale for a kind of guerilla warfare in the sense that guerillas look for apertures and opportunities where they can have an effect." In Artists in Times of War, Zinn looks at the possibilities to create such apertures through art, film, activism, publishing and through our everyday lives. In this collection of four essays, the author of A People's History of the United States writes about why "To criticize the government is the highest act of patriotism." Filled with quotes and examples from the likes of Bob Dylan, Mark Twain, e. e. cummings, Thomas Paine, Joseph Heller, and Emma Goldman, Zinn's essays discuss America's rich cultural counternarratives to war, so needed in these days of unchallenged U.S. militarism.

The Bomb-Howard Zinn
2010-08-01
As a World War II combat soldier, Howard Zinn took part in the aerial bombing of Royan, France. Two decades later, he was invited to visit Hiroshima and meet survivors of the atomic attack. In this short and powerful book, Zinn offers his deep personal reflections and political analysis of these events, their consequences, and the profound influence they had in transforming him from an order-taking combat soldier to one of our greatest anti-authoritarian, antiwar historians. This book was finalized just prior to Zinn's passing in January 2010, and is published on the sixty-fifth anniversary of the bombing of Hiroshima. Simultaneous publication this August in the U.S. and Japan commemorates the 65th anniversary of the USA's two atomic bombings of Japan by calling for the abolition of all nuclear weapons and an end
to war as an acceptable solution to human conflict. "Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history..."—New York Times Book Review "This collection of essays is a great book for anybody who wants to be better informed about history, regardless of their political point of view."—O, The Oprah Magazine "Zinn collects here almost three dozen brief, passionate essays...Readers seeking to break out of their ideological comfort zones will find much to ponder here."—Publishers Weekly "A bomb is highly impersonal. The dropper can kill hundreds, and never see any of them. The Bomb is the memoir of Howard Zinn, a bomber in World War II who dropped bombs along the French countryside while campaigning against Germany. After learning of Hiroshima and Nagasaki, Zinn now speaks out against the use of bombs and what it can do to warfare. Thoughtful and full of stories of an old soldier who regrets what he has done, The Bomb is a fine posthumous release that

shares much of the lost wisdom of World War II."—James A. Cox, The Midwest Book Review "Throughout his academic career, his popular writings and work as an activist Zinn consistently, and often successfully, threw a wrench in the works of the US war machine. He may be gone, but through his powerful and passionate body of work—of which The Bomb is an excellent introduction—thousands of others will be educated and inspired to work for a more humane and peaceful world."—Ian Sinclair, Morning Star "The path that Howard Zinn walked—from bombardier to activist—gives hope that each of us can move from clinical detachment to ardent commitment, from violence to nonviolence."—Frida Berrigan, WIN Magazine

Howard Zinn (1922 –2010) was raised in a working-class family in Brooklyn, and flew bombing missions for the United States in World War II, an experience he now points to in shaping his opposition to war. Under the GI Bill he went to college and received
his Ph.D. from Columbia University. In 1956, he became a professor at Spelman College in Atlanta, a school for black women, where he soon became involved in the civil rights movement, which he participated in as an adviser to the Student Nonviolent Coordinating Committee (SNCC) and chronicled, in his book SNCC: The New Abolitionists. Zinn collaborated with historian Staughton Lynd and mentored a young student named Alice Walker. When he was fired in 1963 for insubordination related to his protest work, he moved to Boston University, where he became a leading critic of the Vietnam War. In his lifetime, Zinn received the Thomas Merton Award, the Eugene V. Debs Award, the Upton Sinclair Award, and the Lannan Literary Award. He is perhaps best known for A People’s History of the United States. CityLights Booksellers and Publishers previously published his essay collection A Power Governments Cannot Suppress.

The Indispensable Zinn-
Howard Zinn 2012-12-11 A “well-chosen anthology of the radical historian’s prodigious output,” from A People’s History of the United States and lesser known sources (Kirkus Reviews). When Howard Zinn died in early 2010, millions of Americans mourned the loss of one of the nation’s foremost intellectual and political guides; a historian, activist, and truth-teller who, in the words of the New York Times’s Bob Herbert, “peel[ed] back the rosy veneer of much of American history to reveal sordid realities that had remained hidden for too long.” A collection designed to highlight Zinn’s essential writings, The Indispensable Zinn includes excerpts from Zinn’s bestselling A People’s History of the United States; his memoir, You Can’t Be Neutral on a Moving Train; his inspiring writings on the civil rights movement, and the full text of his celebrated play, Marx in Soho. Noted historian and activist Timothy Patrick McCarthy provides essential historical and biographical context for each selection. With a foreword by Noam
Chomsky and an afterword from Zinn’s former Spellman College student and longtime friend, Alice Walker, The Indispensable Zinn is both a fitting tribute to the legacy of a man whose “work changed the way millions of people saw the past,” and a powerful and accessible introduction for anyone coming to Zinn’s essential body of work for the first time (Noam Chomsky).

The Historic Unfulfilled Promise-Howard Zinn 2012-06-12 Zinn's articles for "The Progressive" (1980-2009) offer timeless analysis and advocacy for freedom, democracy and social change in the US.

Contesting Empire, Globalizing Dissent-Norman K. Denzin 2015-12-03 "Denzin and Giardina have brought together the works of leading cultural critics who have given cultural studies a global framework that meets our need to examine the governing strategies of the military, the economy, the media, and educational elites...This is a must-read for those who want cultural studies to really matter in the present moment." Patricia Ticineto Clough Contesting Empire, Globalizing Dissent: Cultural Studies after 9/11 is a landmark text. Leading scholars from cultural studies, education, gender studies, and sociology reposition critical cultural studies research around the goals of moral clarity and political intervention. Chapters range in focus from neoliberalism and democracy to America's war on kids and the cultural politics of national identity.

Qualitative Inquiry Under Fire-Norman K Denzin 2017-03-02 This collection of recent works by Norman K. Denzin provides a history of the field of qualitative inquiry over the past two decades. As perhaps the leading proponent of this style of research, Denzin has led the way toward more performative writing, toward conceptualizing research in terms of social justice, toward inclusion of indigenous voices, and toward new models of interpretation and
representation. In these 13 essays—which originally appeared in a wide variety of sources and are edited and updated here—the author traces how these changes have transformed qualitative practice in recent years. In an era when qualitative inquiry is under fire from conservative governmental and academic bodies, he points the way toward the future, including a renewed dialogue on paradigmatic pluralism.

**Howard Zinn Speaks**
Howard Zinn 2012 Howard Zinn has illuminated American history like none other. Before and during his tenure as a political science professor at Boston University, he wrote more than 20 books, including A People’s History of the United States. He was also a known anti-war and civil rights activist. Now, for the first time ever, Howard Zinn's speeches have been collected in book form. The book includes speeches on protest movements, racism, war and American democracy. It will be an invaluable resource for a new generation of students discovering his work, as well as those Zinn moved during his lifetime.

**Howard Zinn's Southern Diary**-Robert Cohen 2018-09-15 The activist and author of A People’s History of the United States records an in-depth and personal account of the Civil Rights Movement in Atlanta. During the Civil Rights Movement of the 1960s, students of Spelman College, a black liberal arts college for women, were drawn into the historic protests occurring across Atlanta. At the time, Howard Zinn was a history professor at Spelman and served as an adviser to the Student Nonviolent Coordinating Committee. Zinn mentored many of Spelman’s students fighting for civil rights at the time, including Alice Walker and Marian Wright Edelman. Zinn’s involvement with the Atlanta student movement and his closeness to Spelman’s leading activists gave him an insider’s view of the political and intellectual world of Spelman, Atlanta University, and the SNCC. He recorded his many insights.
and observations of the time in his Spelman College diary. Robert Cohen presents Zinn’s diary in full along with a thorough historical overview and helpful contextual notes. It is a fascinating historical document of the free speech, academic freedom, and student rights battles that rocked Spelman and led to Zinn’s dismissal from the college in 1963 for supporting the student movement.

The Higher Law—Henry David Thoreau 2004 These thirteen selections from the polemical writings of Thoreau represent every stage in his 22 years of active writing and serve as a microcosm of his literary career.

Howard Zinn on Democratic Education—Howard Zinn 2016-01-08

Perhaps no other historian has had a more profound and revolutionary impact on American education than Howard Zinn. This is the first book devoted to his views on education and its role in a democratic society. Howard Zinn on Democratic Education describes what is missing from school textbooks and in classrooms—and how we move beyond these deficiencies to improve student education. Critical skills of citizenship are insufficiently developed in schools, according to Zinn. Textbooks and curricula must be changed to transcend the recitation of received wisdom too common today in schools. In these respects, recent Bush Administration and educational policies of most previous US presidents have been on the wrong track in meeting educational needs. This book seeks to redefine national goals at a time when public debates over education have never been more polarised—nor higher in public visibility and contentious debate. Zinn's essays on education—many never before published—are framed in this book by a dialogue between Zinn and Donaldo Macedo, a
distinguished critic of literacy and schooling, whose books with Paulo Freire, Noam Chomsky and other authors have received international acclaim.

**Uncommon Sense** - Howard Zinn 2016-01-08 Why Howard Zinn has become one of the most important and influential American historians is perhaps nowhere more evident than in this new book. Few social critics have been as inspiring as the ever-hopeful Zinn and, unlike many historians, Zinn turns historical details toward deeper observations on the universal truths and struggles of humankind. His remarkable wisdom and insight can be found in his earliest writings through his latest essays, speeches, and plays. Uncommon Sense brings together his most poignant and profound quotations from decades of writing and speaking. The book reveals the philosophical side of Howard Zinn and a consistency of vision over 50 years on topics ranging from government to race, history, law, civil disobedience, and activism. Offering quotations of universal and timeless quality, the book shows why history will regard this historian as a political and moral philosopher in the company of Paine, Jefferson, Frederick Douglass, and Martin Luther King Jr.

**The "S" Word** - John Nichols 2011-03-21 In response to the recent political red-baiting by some conservatives, the author offers a history of American socialism, highlighting such prominent socialists as Eugene V. Debs, Horace Greeley and Helen Keller and arguing that the United States owes many of its basic institutions, such as Social Security, to the ideas and efforts of American socialists. Original.

**The Virtues of Exit** - Jennet Kirkpatrick 2017-10-03 Successful democracies rely on an active citizenry. They require citizens to participate by voting, serving on juries, and running for office. But what happens when those citizens purposefully opt out of politics? Exit—the act of...
leaving—is often thought of as purely instinctual, a part of the human "fight or flight" response, or, alternatively, motivated by an antiparticipatory, self-centered impulse. However, in this eye-opening book, Jennet Kirkpatrick argues that the concept of exit deserves closer scrutiny. She names and examines several examples of political withdrawal, from Thoreau decamping to Walden to slaves fleeing to the North before the Civil War. In doing so, Kirkpatrick not only explores what happens when people make the decision to remove themselves but also expands our understanding of exit as a political act, illustrating how political systems change in the aftermath of actual or threatened departure. Moreover, she reframes the decision to refuse to play along—whether as a fugitive slave, a dissident who is exiled but whose influence remains, or a government in exile—as one that shapes political discourse, historically and today.

We, the Students and Teachers—Robert W. Maloy
2014-12-03 Provides practical applications of democratic teaching for classes in history/social studies education, multicultural and social justice education, community service and civic engagement, and education and public policy. We, the Students and Teachers shows educators how to make school classrooms into democratic spaces for teaching and learning. The book offers practical strategies and lesson ideas for transforming democratic theory into instructional practice. It stresses the importance of students and teachers working together to create community and change. The book serves as an essential text for history and social studies teaching methods courses as well as professional development and inservice programs for history and social studies teachers at all grade levels. “The key to the excellent potential of this book is its assertion that democratic teaching can be linked to content, especially historical content, not just to
a generic notion of ‘student-centered instruction.’ The theory-to-practice emphasis is very explicit, as is the emphasis on the voices of the teachers and students who participated in the research. The book also takes a highly creative approach to its topic that I find very refreshing.” — Elizabeth Washington, University of Florida “This is an important book. Maloy and LaRoche reveal the challenges that face historians as we grapple with increasingly fraught public and political perceptions of our discipline. Their strategies for reconstituting the classroom as a laboratory for instilling democratic values and practices are both ingenious and practical.” — Dane Morrison, author of True Yankees: Sea Captains, the South Seas, and the Discovery of American Identity

**The Southern Mystique**
Howard Zinn 2002 Howard Zinn examines the politics of the South and his own experiences there. The South has long been surrounded in mystique. In this powerful volume, drawing on Zinn's own experiences teaching in the South and working within the Southern civil rights movement, Zinn challenges the stereotypes surrounding the South, race relations, and how change happens in history. With a new introduction from the author.

**Censored**- 2001

**A Patriot's History of the United States**-Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America’s past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America’s patriots and the achievements of “dead white men.” As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced...
from Josef Stalin. A Patriot’s History of the United States corrects those doctrinaire biases. In this groundbreaking book, America’s discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America’s true and proud history.

**Postwar America, 1945-1971**
Howard Zinn
2002
Howard Zinn's unique take on this vital period in U.S. history, with a new introduction. The postwar boom in the U.S. brought about massive changes in U.S. society and culture. In this accessible volume, historian Howard Zinn offers a view from below on these vital years in American history. By critically examining U.S. militarism abroad and racism at home, he raises challenging questions about this often romanticized era.

**Undaunted by the Fight**
Harry G. Lefever
2005
Undaunted by the Fight is a study of small but dedicated, group of Spelman College students and faculty who, between 1957 and 1967 risked their lives, compromised their grades, and jeopardized their careers to make Atlanta and the South a more just and open society. Lefever argues that the participation of Spelman's students and faculty in the Civil Rights Movement represented both a continuity and a break with the institution's earlier history. On the one hand their actions were consistent with Spelman's long history of liberal arts and community service; yet, on the other hand; as his research documents; their actions represented a break with Spelman's traditional non-political stance and challenged the assumption that social changes should occur only gradually and within established legal institutions. For the first time in the eighty-plus years of Spelman's existence, the students and faculty who participated in the Movement
took actions that directly challenged the injustices of the social and political status quo. Too often in the past the Movement literature, including the literature on the Atlanta Movement focused disproportionately on the males involved to the exclusion of the women who were equally involved, and; who, in many instances, initiated actions and provided leadership for the Movement. Lefever concludes his study by saying that Spelman's activist students and faculty succeeded to the extent they did because they "kept their eyes on the prize." They endured the struggle; he says; and, in so doing; eventually won many prizes -- some personal, others social. "Undaunted; they liberated themselves, but at the same time they liberated their school, their city and the larger society."
